

WEINKARTE

We selected our German wines carefully to provide you with regional varieties and different types of great German grapes and styles of wine.

Doing so, we have a lot of confidence in both Hiram Simon (Wine Wise) and the James Beard award-winning wine and champagne importer Terry Theise.

“Distinctiveness is more important than conventional prettiness. Soul is more important than anything, and soul is expressed as a trinity of family, soil, and artisanality. Lots of wines, many of them good wines, let you taste the noise. But only the best let you taste the silence.” (Skrunik Wines, 2016)

(All wines and digestives are also available for a retail price.)
